NCA HOSTS COMPUTER ENGINEERING STUDENTS OF LEGON ON A STUDY VISIT

Accra, 10 March, 2023: The National Communications Authority (NCA) hosted sixty-six (66) Computer Engineering students from the University of Ghana on 9th March, 2023, on an educational visit to the NCA. The visit was to provide the students with the opportunity to gain practical knowledge of the ICT infrastructure within the telecommunications industry and its operations.

Prof. Ezer Osei Yeboah-Boateng, Deputy Director General, Technical Operations, giving the welcome address.

Speaking at a short ceremony, the Deputy Director General of the NCA in charge of Technical Operations, Prof. Ezer Osei Yeboah-Boateng, shared his experience in the fields of microprocessor-based specialisation, computer engineering, IT-based programming, and biometric security. He urged the students to make the right choice in the selection of a specific field of interest, in either software or hardware engineering. He further encouraged the students to take advantage of the visit to learn as much as possible from the industry experts who would be taking them on the tour.

Dr. Isaac Agyei Aboagye speaking at the event.

Dr. Isaac Agyei Aboagye, on behalf of the Computer Engineering Department of the University of Ghana, expressed gratitude to the NCA for hosting the Students and providing them with such an enriching experience. He stated that the visit was part of the University's efforts to expose its Students to the practical aspects of their course of study and to provide them with opportunities to engage with industry experts.

About NCA

The National Communications Authority, (NCA), was established by an Act of Parliament, Act 524 in December 1996, which has been repealed and replaced by the National Communications Authority Act, 2008 (Act 769). The Authority is the statutory body mandated to license and to regulate electronic communication activities and services in the country.
